FRTC ACHIEVES DHET CERTIFICATION

Exciting news – Felix Risk Training Consultants (FRTC) has achieved its Certificate of Registration as a Private College to offer two qualifications, namely the Occupational Certificate: Insurance Agent (insurance underwriter) (NQF level 5) and the Occupational Certificate: Compliance Officer (NQF Level 6).

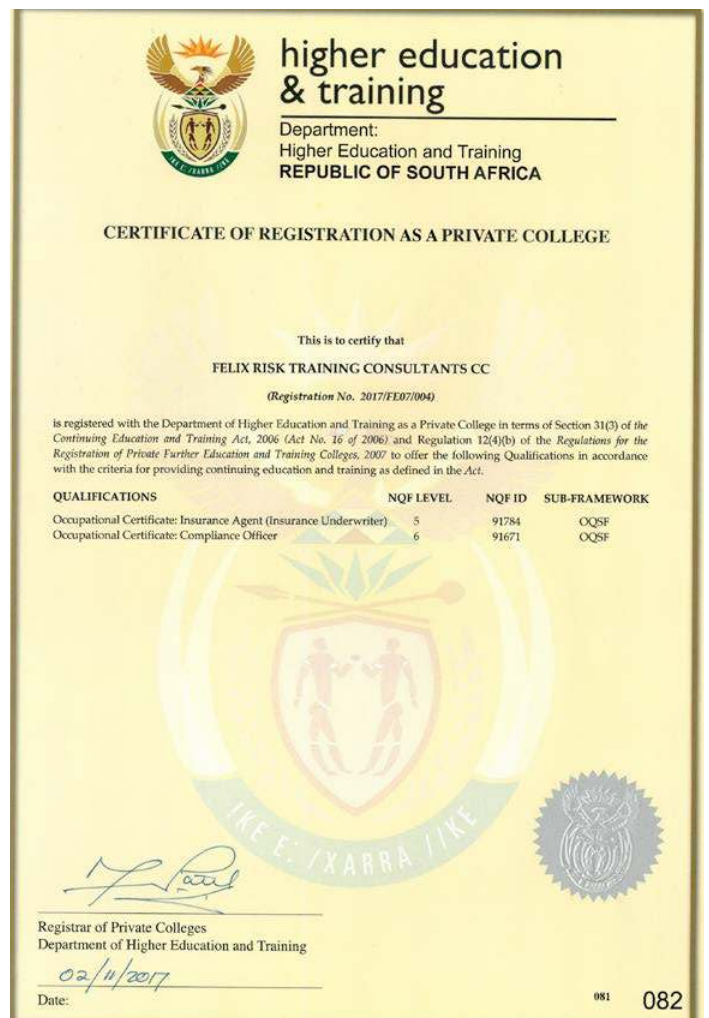

The certification from the Department of Higher Education and Training (DHET) comes after FRTC met all the requirements for providing continuing education and training, as defined in the Continuing Education and Training Act and the Regulations for the Registration of Private Further Education and Training Colleges.

“We are thrilled to have achieved the certificate of registration,” said Bernadette Felix, director of FRTC. “We always aim to provide training services that are of high quality standards and accreditations which meet the needs and expectations of our clients.”

FRTC programmes focus on niche areas of core banking, banking administration, treasury and credit risk management. FRTC provides training by means of specialised initiatives, learnerships and internship programmes. We provide various short-skills programmes to government and private companies.

Felix Risk Training Consultants’ banking qualifications are also fully accredited with BANKSETA, a statutory body established through the Skills Development Act of 1998 to enable its stakeholders to advance the national and global position of the banking and micro-finance industry.

In addition, FRTC is accredited with the Institute of Risk Management South Africa (IRMSA), recognised by the South African Qualifications Authority (SAQ), as the only professional body for Risk Managers in Southern Africa. FRTC is dedicated to the advancement of the Risk Management profession and accreditation, and is the leading source of information and networking opportunities within the Risk Management industry.
